

# Annual land valuations 2019

On 6 March 2019, the Valuer-General issued annual statutory land valuations to all landowners in 18 Queensland rateable local government areas in accordance with the *Land Valuation Act 2010*.

## How are valuations determined?

- Registered valuers research the property market and examine trends and sales information for each land use category.
- New valuations are determined that reflect the movement in the property market since the last valuation.

## Council rates

- A change in valuation does not necessarily mean that your council rates will change.
- For more information on how council rates are determined, contact your local council or visit the Department of Local Government, Racing and Multicultural Affairs website [www.dlgrma.qld.gov.au](http://www.dlgrma.qld.gov.au)

## Save paper and the environment

Receive your future valuation notices and other valuation information by email. To change your contact details visit the Land Valuations website [www.qld.gov.au/landvaluation](http://www.qld.gov.au/landvaluation)

## Objections close on 7 May 2019

Queensland landowners, who do not agree with their valuation, and can supply information to support their claim, may lodge an objection.

- An objection must be lodged by 7 May 2019.
- To lodge an objection online, visit the Land Valuations website at [www.qld.gov.au/landvaluation](http://www.qld.gov.au/landvaluation). Please read the relevant objection guide prior to starting your objection.

If you do not have internet access, hard copy guides that include the forms can be obtained from departmental business centres or by phoning the number below.
